ABOUT ME

My name is Javier and I am from Argentina. The web is very extensive, and its development is complex. My goal is to unify web development with design, adapting to the needs in which I find myself: from prototyping and layout, through design, Ux/Ui, Frontend Development or No-Code tools.

HONOURS AND AWARDS

[02/2017] **1st Place in First Lego League MADRID**

Teams of students ages 9-16 engage in research, problem-solving, coding and engineering – building and programming a LEGO robot that navigates the missions of a robot game. As part of Challenge, teams also participate in a research project to identify and solve a relevant real-world problem. With the second place in the robot design and with our research project we won the First Place in First Lego League MADRID and we obtained a place for the National Championship.

[2017] **2nd Place in First Lego League MADRID - Robot design**

Second place in First Lego League MADRID in the programming, design and construction of a robot

[2017] **2nd Place in First Lego League SPAIN - Innovative solution**

At the national championships we won a place at the international championships in Bath, UK.

[2022] **2nd Place in the design of the entrepreneurship classroom logo**
